

Where innovation is going on the web

Alan Noble, Head of Engineering, Google Australia

To understand the future, first understand the past ... 

Google: A product of the Internet

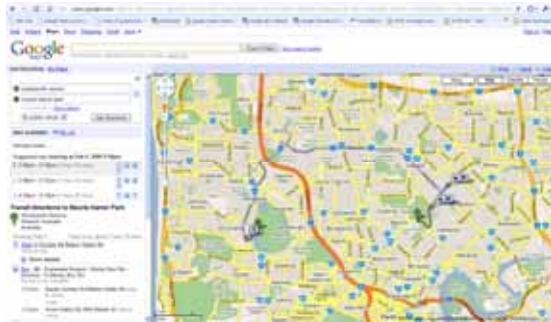

Openness meant we could innovate unimpeded

Two trends influencing web innovation today

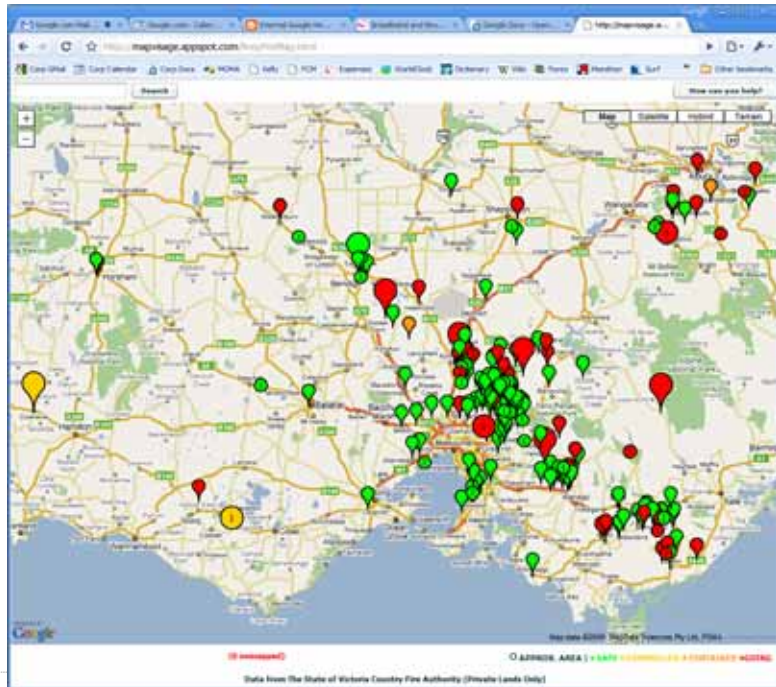

Open Source

Open Data

Google Confidential and Proprietary 5

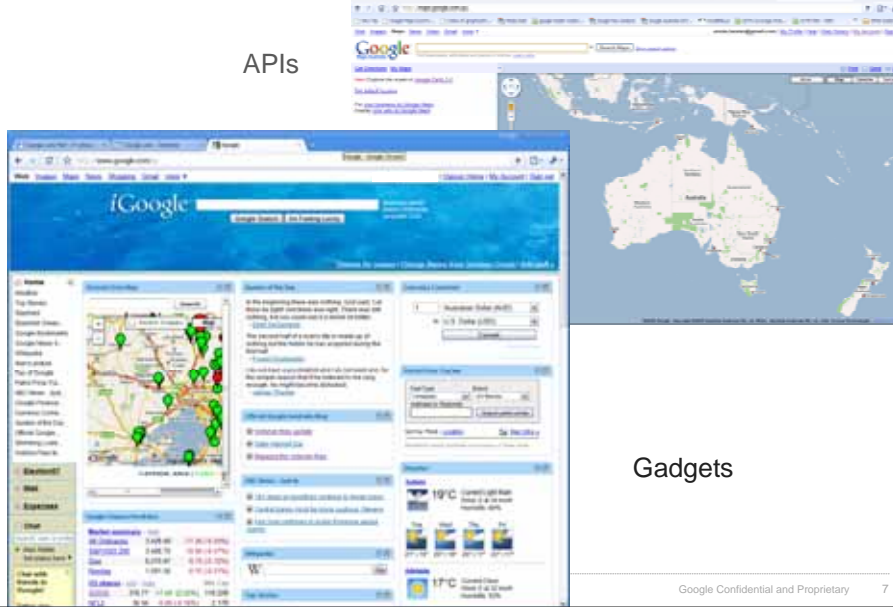

6

Two technologies changing the face of the web

APIs

Gadgets

Google Confidential and Proprietary 7

Where does Broadband fit in?

Google Confidential and Proprietary 8

Where innovation is going on the web

The winner from this innovation?

Thank you!

Alan Noble, Head of Engineering, Google Australia
