NBN Industry Connection #3

About the Forums:

The Government's Discussion Paper '*National Broadband Network: Regulatory Reform for 21st Century Broadband*' signals legislative reforms to facilitate the rollout of the NBN. It is critical the industry grasps this opportunity to ensure the NBN delivers the capabilities, services and outcomes required to drive innovation, efficiency and an enhanced lifestyle for Australia.

Communications Alliance is taking a lead role in preparing for multi-lateral consultation on the identified topics through an early and ongoing engagement with industry stakeholders.

This third series of Forums will feature a presentation from **Mike Quigley, Executive Chair of NBN Co Limited**, on NBN Co's Initial Steps, as well as an **update on the Communications Alliance NBN Project** and its initial outcomes.
